## Base Range

## Cleaning Solutions

WSS offers cleaning chemicals, equipment and dosing application to cover the essential needs of offshore rigs, installations and vessels. We protect your assets and support your operations so you can focus on your value drivers in a safe and clean environment.

### Surface Cleaning & Application

WSS supplies a wide range of Unitor™ cleaning chemicals ideal for drill floor, machinery, piping and deck areas. All surface cleaning chemicals are specially formulated and field proven to match your requirements for heavy duty degreasing, rust removal, cleaning in place (CIP), descaling, surface brightening and for biodegradable cleaning chemicals.

Product	Product Information	Product Number
Cleanrig HP 200L	Cleaning of drill floor and deck.	719021
Cleanrig HP 1000L	Cleaning of drill floor and deck.	724617
Cleanrig HP 50 % 200L	Cleaning of drill floor and deck.	739631
Cleanrig HP 50 % 1000L	Cleaning of drill floor and deck.	738146
Cleanrig HP RTU 200L	Cleaning of drill floor and deck.	770048
Cleanrig HP RTU 1000L	Cleaning of drill floor and deck.	777255
Metal Brite HD 25L	Rust removal and brightener.	571679
Metal Brite HD 210L	Rust removal and brightener.	655506
Metal Brite 25L	Rust removal and brightener.	571661
Cleanbreak 25L	Cleaning for machinery spaces.	571497
Cleanbreak 1000L	Cleaning for machinery spaces.	769042
Aquatuff 25L	Cleaning of drill floor, deck and soot.	607826
Coldwash Hd 25L	Degreaser for deck and machinery	571430
Enviroclean 25L	Surface degreasing outside and for use in Unitor ultrasonic part and filter cleaners.	765018
Enviroclean 220L	Surface degreasing outside and for use in Unitor ultrasonic part and filter cleaners.	765020
Descaling Liquid 25L	Acid containing descaling accelerators and corrosion-inhibitors.	571653
HP Wash 25L	Detergent for Unitor high-pressure cleaning machines.	571729
Seacare Ecosperse LT 23	Concentrated type II & III oil spill dispersant, which is highly efficient for use on a wide range of oils.	764424
Electrosolv - E 25L	Electrical equipment cleaner.	604389
Descalex 25 Kg	Closed System Cleaning. Descaler that removes rust and scale.	571646
Acc Plus 25L	Closed System Cleaning. Cleaning agent for air cooler cleaning	698704
Commissioning Cleaner 25L	Closed System Cleaning. Commissioning cleaning for boiler and cooling water system.	624932
Disclean 25L	Closed System Cleaning. Cleaning of separator discs	571687
Unipol 25L	Closed System Cleaning. PH-neutral liquid concentrated detergent/cleaner.	736975

### Cleaning Equipment

WSS offers a variety of corresponding cleaning equipment that are aligned to Unitor™ chemical application. We provide mobile and stationary electrical high-pressure cleaner, air-driven high-pressure cleaner for 'Ex' areas, related wet sandblasting equipment, accessories and chemical applicators for optimum surface preparation. Furthermore, we offer pumps for chemical mixing/transfer and ultrasonic cleaning machines designed to remove the most stubborn dirt inside equipment, filters etc.

Product	Product Information	Product Number
HPC Extreme 520	Unitor High Pressure Cleaner (HPC) for surface prep. and heavy duty cleaning. Comes in (3~440V/60Hz) / (3~400V/50Hz).	721520
UNITOR HPC 67/1 3x440/60Hz	High pressure cleaner (HPC) for heavy duty cleaning. Comes in (3~440V/60Hz) / 3~400V/50Hz).	777889
HPC Airclean 25	Air-driven high-pressure cleaners (HPC) which can be used in EX GD areas.	734087
HPC Airclean 32	Air-driven high-pressure cleaners (HPC) which can be used in EX GD areas.	734095
Delta Booster-4 3x440/60	Stationary High Pressure Cleaning (HPC) system designed for multiple outlets/users.	613804
Unitor Duo Booster 3~440/60Hz	Stationary High Pressure Cleaning (HPC) system designed for multiple outlets/users.	778161
Ultrasonic S 2000/HM 1~230V	Unitor Ultrasonic (USC) part & filter cleaner.	766923
Ultrasonic S 3300/HM	Unitor Ultrasonic (USC) part & filter cleaner. Comes in (3~400V) / (3~440V).	766956
Ergo 3000 Spray Gun	Spare gun for Unitor HPC 67/1.	665158
Coupling Kit Ergo 3000	Connection to multiple hoses.	546036
High Pressure Hose 25M for 721520 / 721027	Hose (HPC) for Unitor HPC Extreme 520.	721381
Heavy Duty Deck Hose 25M	Hose (High-pressure hose).	671792
Powerspeed Attachment Extreme 520	Rotating power nozzle. Increases cleaning impact with up to 50%.	721209
Rep Kit	Rotating power nozzle repair kit	728915
Connecting nipple for extension hoses	Connecting nipple for connecting multiple hoses when cleaning.	721936
Sandblasting Kit	Wet sandblasting.	721175
Jet Spray 10L SS	Chemical cylinder used when spraying and application of chemical to surfaces.	572123
Grease Pump 50:1, For 20kg Drums	Pump	655530
2:1 Chemical Pump Sst316	Pump	718890
Double Diaphragm Pump 515 Poly	Pump	634787
Hurricane 73	Pump	732289
1:1 Oil Pump W/Spout	Pump	778893

## Accommodation Area Cleaning

Keeping kitchen, rest rooms, laundry and accommodation areas clean in order to reduce the risk of infections and diseases is vital to ensure occupational health and safety. We supply detergents, bio-chemicals and related mixing equipment that have been specially adapted for these essential cleaning tasks. For personal care, we provide hand cleaners, sanitizer and skin protection products. In addition, we offer a range of chemicals for sewage treatment. More specifically, we provide defoamers, flocculants and bio-chemicals that optimize biological activity in sewage treatment plants and its associated systems.

Product	Product Information	Product Number
Aquabreak Px 25 Ltr	Accommodation multi-purpose cleaner.	575613
Easyclean Window & Mirror 10 Ltr	Accommodation cleaner of surfaces such as windows, mirrors and glossy surfaces in galley/accommodation areas.	778847
Easyclean Floor & Hard Surface 10Ltr	Accommodation cleaner of surfaces such as floor and other hard surface. The product is EU flower ecolabelled.	778843
Easyclean Cleaning & Disinfection 10Ltr	Accommodation cleaner/disinfection agent with outstanding bacterial performance for your accommodation areas.	778845
Easyclean Soft Surface & Spot 10Ltr	Accommodation cleaner which deodorizes and sanitizes soft surfaces like carpets, furniture upholstery etc.	778849
Easyclean Oven & Grill 6 x 0,6Ltr	Kitchen general purpose cleaner with heavy duty alkaline agents for oven & grill cleaning.	778860
Easyclean Dishwashing Liquid Manual 12 x 1Ltr	Kitchen dishwasher detergent cleaner intended for manual dishwashing.	778864
Easyclean Laundry Tablet Pack 12 x 30 tabs	Laundry detergent tablet for optimum cleaning and dosage control when washing.	778883
Easyclean Laundry Tablets (Conditioner) 4 x 5Ltr	Laundry conditioner formulated to prevent static electricity, reduce wrinkling and softening the fibers when washing.	778869
Easyclean Basin & Toilet Bowl 10Ltr	Toilet and basin liquid cleaner that safely cleans and removes rust, hard water stains and other deposits from basins and toilets.	778851
Gamazyme TDS 5 Kg Blue Sach W/Mint	Toilet descaler (biochemical) for removal of urine scale in restrooms/bathrooms etc.	743146
Gamazyme Btc 12 X 1 Ltr	Toilet, sink and shower cleaner with biological active liquid formulation.	589945
Bilgewater Flocculant 25 Ltr	Sewage treatment in liquid form. The treatment is based on PAC.	690669
Gamazyme 700fn 12kg	Sewage waste treatment in concentrated biologically active powder (gamazyme) form.	571711
Gamazyme Digestor 20 Ltr Bib	Sewage treatment (gamazyme) which increase organic degradation performance.	624015
Gamazyme Dpc 4.0 Kg	Sewage treatment (gamazyme) formulated to degrade excess residual organic waste.	587055
Defoamer Concentr. 25 Ltr	Sewage treatment defoamer used to reduce foam during sewage system treatments.	661843
Easyclean Hand Soap D 6 x 2Ltr	Soap in gel form for general hand cleaning purposes.	778858
Natural Hand Cleaner 4X5L	Soap for heavy duty hand cleaning, sanitation and bacteria protection.	571752
Easyclean Hand Barrier Cream WET 12 x 250ml	Lotion which protects against water-based materials and contaminants.	778875
Easyclean Hand Barrier Cream DRY 12 x 250ml	Lotion which protects against solvent and oil-based contaminants.	778877
Easyclean After Work Lotion 12 x 250ml	Lotion which prevents dry/cracked skin and leaves the skin moisturized and supple.	778879
Easyclean Hand Sanitizer 6 x 2Ltr	Lotion with chlorhexidine formulation that is alcohol-free, sanitizing and moisturising.	778856
Unitor Hand Care Dispens.	Soap and sanitizer dispenser.	778841
Unitor Mixing Station 4-4	Mixing Station of chemicals.	778844
Unitor Mixing Station 4-14	Mixing Station of chemicals.	778833
Unitor Cleaning Station 2	Cleaning station and mixer.	778822

## Water Solutions

### Base Range

## Water Solutions

The Nalfleet™ Water Solutions contain products designed for the marine and offshore market. The Nalfleet™ product range offers extensive solutions for the relevant water systems, dosing equipment, chemicals, test kits and monitoring software. These are all supported with instructional videos and e-learning programs.

### Water Treatment – Boilers & Cooling Water Systems

Complete solution for asset protection and maximized health and environmental focus. The products are easy to dose and control through the Aquaguard dosing systems with associated test kits. Our cooling treatments include biocides that reduce micro-biological growth and general corrosion inhibitors. For boiler water treatment, we offer multifunctional, liquid boiler water treatments, formulated with alkaline compounds, scale inhibitor, dispersant, and volatile amines for the protection of the feed, boiler and condensate systems. In addition, we offer liquid catalysts (diethyl hydroxylamine) that protect against oxygen corrosion.

Product	Product Information	Product Number
Boiler Water Treatment: Autotreat	Multifunctional boiler water treatment	698720
Boiler Water Treatment: Oxygen Scavenger Plus	Oxygen Scavenger	698712
Boiler Water Treatment: Boiler Coagulant	Boiler Coagulant	571331
Cooling Water Treatment: Mar-71 Biocide 3x5l	Biocide	735977
Cooling Water Treatment: Spectrus Nx1100	Biocide	661991
Cooling Water Treatment: Nalfleet 2000 25 Ltr	Nitrite-based corrosion inhibitor	777710
Cooling Water Treatment: Nalfleet 2000 210 Ltr	Nitrite-based corrosion inhibitor	777711
Cooling Water Treatment: Cooltreat AL	Organic-based corrosion inhibitor	680843
Cooling Water Treatment: Rocor NB Liquid 25 Ltr	Nitrite-based corrosion inhibitor	571356

### Potable & Technical Water Production Treatment

Complete solution for water production and quality monitoring. The treatment products with associated test kits provide safe water for technical and potable use. The test kits are for offshore water quality monitoring as a standalone test or in combination with laboratory testing. More in detail, our potable water and water treatment offer stabilisers (polyphosphates) for scale and corrosion challenges, polymers to treat evaporators, sodium hypochlorite to reduce bacteria growth, scale inhibitors for reverse osmoses systems as well as sodiummetabisulfit to pre-treat RO water production systems. Our range of products and test kits help you maintain the quality of your potable water and comply with the MLC 2006 Maritime Labour Certificate.

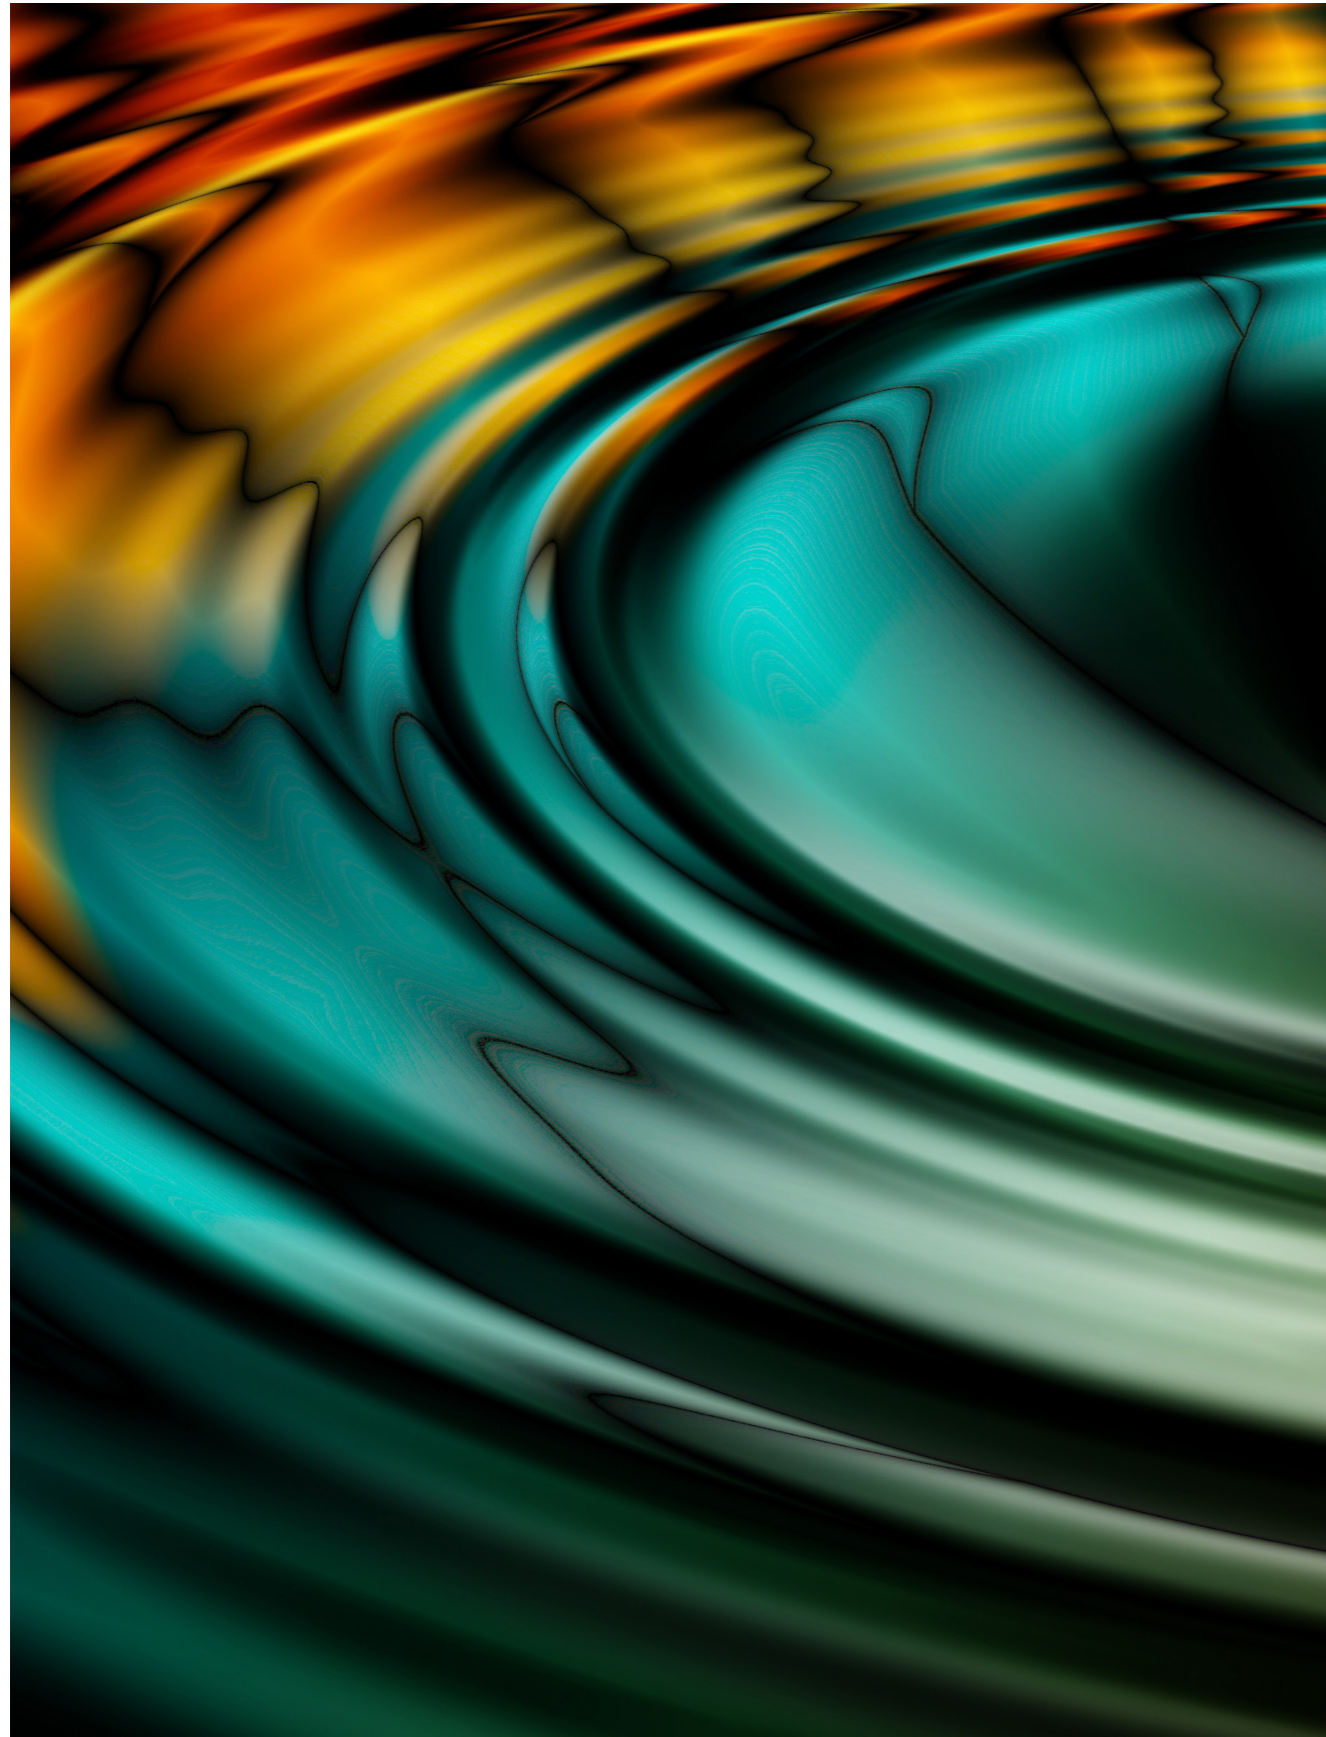

Product	Product Information	Product Number
Sodium Hypochlorite	Potable Water Treatment	909001
Potable Water Stabiliser Liquid	Potable Water Treatment	777714
Potable Water Stab 25 Kg	Potable Water Treatment	624916
Ro Bisulphite 25 Ltr Liquid 38-40%	RO water treatment	777852
Ro Alkaline Cleaner 25 Ltr	RO water treatment	777718
Ro Mild Acid Cleaner 25 Ltr	RO water treatment	777715
Ro Scale Control 25 Ltr	RO water treatment	777716
Vaptreat 25 Ltr	Evaporator water treatment	571364
Brine Corrosion Inhibitor	Brine Water Treatment	777044
BioGuard Plus	Seawater treatment	778846

### Test Kits & Dosing Equipment

Product	Product Information	Product Number
Test Kit: Test Kit For Cooltreat AL	Test Kit For Cooltreat AL	758904
Test Kit: Spectrapak 313	Boiler Water test kit for Oxygen Scavenger Plus	698746
Test Kit: Spectrapak 315	Boiler Water Test kit for Autotreat	739490
Test Kit: Spectrapak 309	Test kit for Rocor NB Liquid	739466
Test Kit: Motor ship test kit - MO246A	Test kit for Nalfleet 2000	777066
Test Kit: Maxidirect Photometer MD600	Hand held spectrophotometer	777180
Dosing Equipment: Aquaguard BW	Boiler Water Chemicals dosing equipment	778921
Dosing Equipment: Aquaguard CW	Cooling Water Chemicals dosing equipment	778907

# Oil Solutions

## Base Range

# Oil Solutions

Challenges with propulsion engines, fuel tanks, corrosion, filters and diesel-powered generators are often related to the fuels used, and not the engine mechanics directly. This underlines the need for fuel treatment to be an integrated part of your maintenance. Reducing downtime, increasing operational stability and eradicating costly breakdowns and repairs are all part of strengthening your operational efficiency and HSE. WSS can help you achieve these objectives in your offshore operations.

Our Unitor™ FuelPower and DieselPower range has been developed together with the offshore and maritime industry. The range improves fuel performance and efficiency, reduce the risk of problems down the line, and do so more cost-effectively than ever before. As the demands on fuel continue to change, the Unitor™ FuelPower and DieselPower range help you meet the challenges now and in the future.

### Fuel Oil Treatment – Diesel Oil

Distillate fuels used in propulsion engines and diesel-powered generators are prone to deterioration through temperature and oxidation, contamination from microorganisms and exposure to UV light - which again causes gum formation, sedimentation and colour changes. Prolonged “storage” of the fuel in, for example, emergency/ backup systems, further deteriorates the fuel. The refiners only add protection to the fuel for a short period and after this, the fuel is left unprotected from deterioration.

When operating in harsh and changing environments, we know from industry experience that bacteria growth (microorganism contamination) is an especially common problem for offshore operators. WSS has thus developed a specially designed biocide to eradicate this challenge - DieselPower Mar 71. This biocide is part of a new product range – Unitor DieselPower – specifically designed for distillates. A series of advanced formulations helps to keep your fuels bright, stable and trouble-free, with fewer problems and lower costs in operation.

Product	Product Information	Product Number
Dieselpower Mar 71 25 Ltr	Diesel Oil – Bacterial Growth	571257
Dieselpower Enhancer 25 Ltr	Diesel Oil – Thermal stability	777190
Dieselpower Lubricity 25 Ltr	Diesel Oil – Lubricating film	777195
Dieselpower CFPP Ltr	Diesel Oil – Waxation	778405

### Fuel Oil Treatment - Heavy Oil

Most problems with heavy fuels are related to fuel compatibility. The compatibility becomes a problem in the fuel tanks as sediments are formed and thereafter follow the fuel system causing sludge problems in the separator and the filters. Although heavy fuel consumption is limited and inherent challenges are thus less frequent, they may still occur.

To help meet these challenges, our new Unitor™ FuelPower range applies the most advanced technologies to ensure you can continue to use today's heavy fuels with confidence.

Product	Product Information	Product Number
Fuelpower Demulsifier 25 Ltr	Heavy Oil – Water ingress	778791
Fuelpower Conditioner 25 Ltr	Heavy Oil – Sludge remover	778785

### Fuel Oil Treatment - Test Kits

Given the variable quality of fuels today, on-board testing is a sure way to ascertain problems that arise due to inconsistency in quality.

Our range of fuel-testing equipment allows the crew to get an immediate insight into the state of the fuel – quickly, simply and accurately. Challenges such as excess water in the fuel, increased density, bacterial formation, seawater contamination, changes in viscosity and insolubles in distillate fuels as well as water in lubricating oil, can be determined early by testing. Where problems are detected, the appropriate fuel treatment can be applied immediately to restore quality and ensure operational efficiency.

Product	Product Information	Product Number
Unitor Bacteria Single Test Kit	Diesel fuel only	764493
Unitor Easyship Combined Test Kit	Diesel and heavy fuel	773154
Unitor Easyship Water Test Kit	Diesel and heavy fuel	773155
Unitor TBN Test Kit	Diesel and heavy fuel	773150
Unitor Easyship Reagent Pack Water	Single Reagent	773156
Unitor TBN Reagent Pack	Single Reagent	632406

## Gases & Cylinders

### Base Range

## Gases & Cylinders

Across the offshore industry, the pressure is on. Against a backdrop of constantly changing regulations, WSS's main focus is to ensure that essential gases and refrigerants are supplied, transported, stored and used safely in compliance with the latest regulations.

WSS operates the world's largest global network of distribution, re-filling, maintenance and exchange of gas and refrigerant cylinders. In addition to this, we provide you with transportation and manifold racks for safe handling during transport/storage.

### Transportation Racks & Cylinders/Rack Exchange

For safe handling, transport and storage of gas cylinder, WSS provides certified rental racks in compliance with DNV 2.7-1. Each rack holds X16 cylinders and both rack and cylinder are barcoded for tracking. WSS also facilitates the required third-party rack inspection every 12<sup>th</sup> and 48<sup>th</sup> month. The rack can be equipped with an IMDG certified manifold with a single central outlet. The latter feature is optional and available upon request.

With respect to the Unitor™ cylinders, WSS ensures quality through a continuous and consistent maintenance and quality assurance program. We track and trace each individual cylinder through barcodes and offer a worldwide cylinder exchange program. Send us your empty cylinders and we will swap them with pre-filled new cylinders at your convenience. If desired, and preferable with respect to safe handling, an equal exchange of cylinders should be practiced by using our transport racks. Consolidation of your gases and rack supply creates savings through a single procurement process, one logistic operation and the use of standardised high quality products.

Product	Product Information	Product Number
Unitor Transport Rack	Transport Rack	772202
Manifold	Manifold for Rack	772208

### Industrial Gases

WSS supplies all essential gases from welding gases with oxygen and acetylene to shield gas (argon) and inert gas (nitrogen). We also supply a wide range of gases for specialised demands like carbon dioxide, helium and propane. For calibration of critical sensors, WSS also provides a wide range of span gases. In addition, we support your offshore gas requirements when blanketing, purging, leakage testing and performing system commissioning.

Product	Product Information	Product Number
Industrial Gases: Oxygen 40 ltr	Welding gases etc.	905034
Industrial Gases: Unimix (80/20) 50ltr	Welding gases etc.	905581
Industrial Gases: Acetylene 40ltr	Welding gases etc.	905026
Industrial Gases: Argon 50ltr	Welding gases etc.	905174
Industrial Gases: CO2 C-27	Welding gases / CO2	905695
Industrial Gases: Nitrogen 99.9% Purity	Blanketing/Purging/Calibration	905208
Industrial Gases: Helium	Leakage Testing etc.	905618
Industrial Gases: Hydrogen Sulphide/N2 25 Ppm (S 58)	Span Gas/Calibration	620138
Industrial Gases: Minimix 2.5% Methane-Air	Span Gas/Calibration	619965
Industrial Gases: Propane	Span Gas/Calibration	588996
Gases: Breathing Oxygen MOX 40	Medical OX	905617
Gases: Breathing Oxygen MOX-2	Medical OX	905638

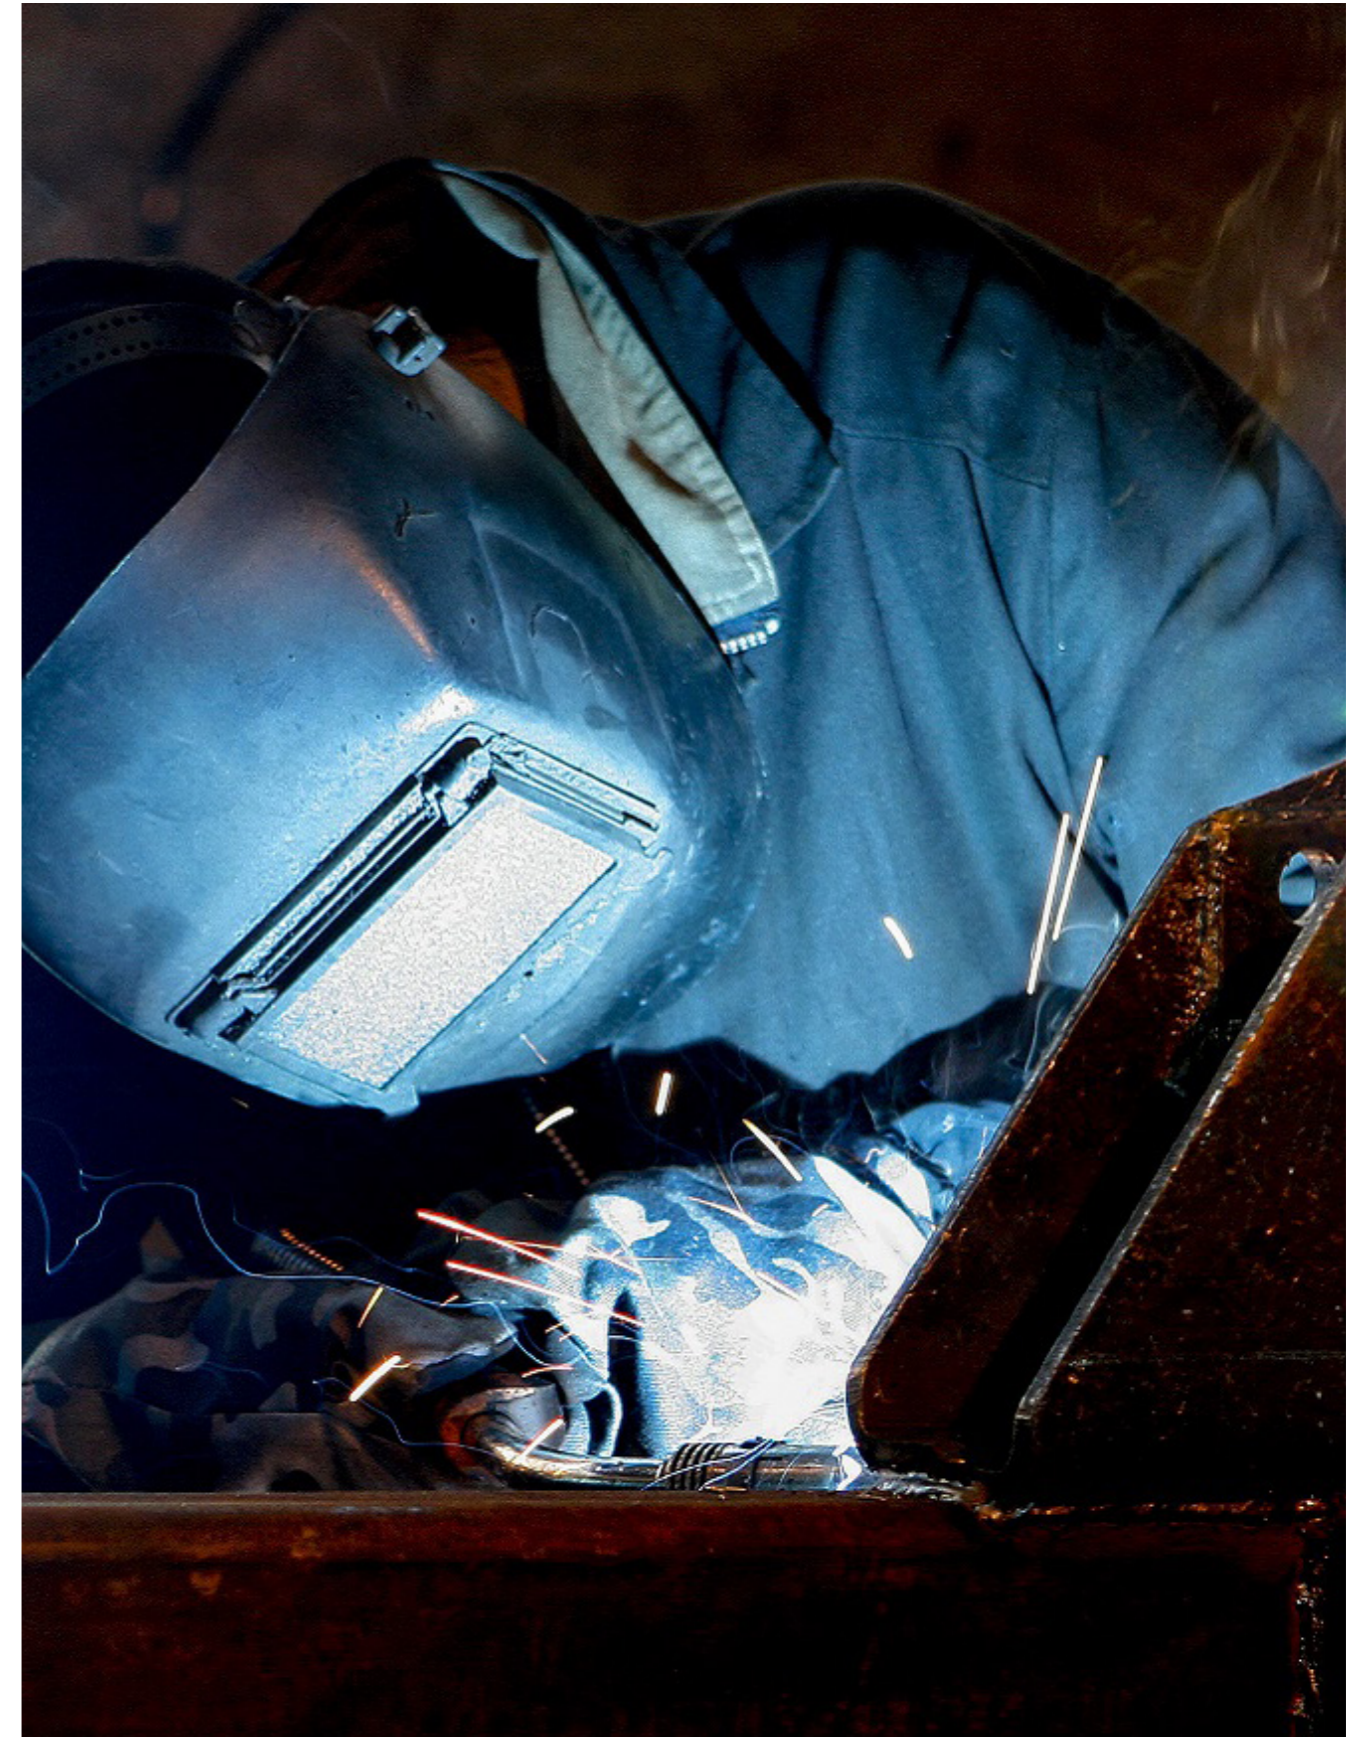

## Refrigerants & Products

We offer a wide range of high-quality Unitor™ refrigerants and equipment to your offshore operations. The Unicool™ range of refrigerants is available worldwide from the Arctic to Macae. Our refrigerants are quality assured and comes with Low ODP and GWP to ensure compliance to rules and regulations. The range consists of quality refrigerants such as R-134a, R-404A, R-407C, R-407F, R410A, R-417A, R22 and many more. In addition, we offer refrigeration recovery packages, handy refrigeration tools, duct air treatments and water coolers stations.

Product	Product Information	Product Number
Unicool R-404A; 9.5 kg	Refrigerant	905623
Unicool R-407C; 11 kg	Refrigerant	905624
Unicool R-417A; 11 kg	Refrigerant	905705
Unicool R-407F; 11 kg	Refrigerant	905712
Unicool R-134a; 12.5 Kg	Refrigerant	905620
Unicool R-410A; 9.5 Kg	Refrigerant	905627
Unicool R-22; 57 Kg	Refrigerant	905059
Unicool R-407F; 51 kg	Refrigerant	905715
Unicool R-404A; 45 kg	Refrigerant	905606
Unicool R-407C; 52 kg	Refrigerant	905607
Unicool R-134a; 57 kg	Refrigerant	905557
Unicool R-417A; 51 kg	Refrigerant	905637
Refrigerant Recovery Package F/220v	Refrigerant Products	652522
Refrigeration Tool Kit	Refrigerant Products	752154
Charging hoses*	Refrigerant Products	597757
Cylinder Adaptor Set*	Refrigerant Products	544932
Deluxe Manifold Set 4-Way*	Refrigerant Products	711473
Vacuum Pump 110/220v Uvp-15401*	Refrigerant Products	587568
Refrigerant Recovery Unit Uru-5000a*	Refrigerant Products	613748
Hand Held electronic leak detector UNIRX-1*	Refrigerant Products	716142
Recovery unit connection kit	Refrigerant Products	613935
Recovery Equip. Storage box	Refrigerant Products	734681
¼ - 3/8" collection of fittings	Refrigerant Products	636431
3/8 - 5/8 Collection of fittings	Refrigerant Products	636449
Duct Air Treatment 2 kg	Air Treatment & Disinfection	743466
Duct Air Treatment 4 klg	Air Treatment & Disinfection	764417

## Welding Equipment & Consumables

### Base Range

## Welding Equipment & Consumables

As a welding specialist, we are the one provider of all your welding essentials. Whether you are seeking welding equipment, consumables, safety equipment or documentation, we will support your operations. Moreover, we provide knowledge sharing including welding schools, solution guide posters and welding handbooks – all continuously updated from the early 1950s.

### Welding Equipment

A demanding environment requires the best equipment. Uunitor™ equipment is portable or transportable to facilitate maintenance welding on a variety of locations and environments on board. From open deck to the workshop, our Uunitor™ equipment will not let you down. It's lightweight, robust, and in compliance to rules and regulations for offshore and maritime use. The welding methods offered covers all maintenance challenges encountered on board. More specifically, our welding range covers arc and gas welding equipment, consumables and storage solutions. This includes equipment such as regulators, hoses, trolleys, clamps flashback arrestors and fume extractors for gas welding and equipment for TIG welding, wire welding, plasma cutting, and stick welding as well as portable/transportable power sources for arc welding.

Product	Product Information	Product Number
Upc-1041 Plasma Cutter Complete	Plasma Cutter	404100

### Consumables & Cabinets

High quality coupled with versatility is at the core of the selection of consumables in the Uunitor™ standard range. It is composed to cover all offshore challenges, yet to be as compact as possible. Our range covers consumables for stick/electrode welding, wire welding, TIG welding, brazing, gas welding and cold repair compounds. Overall, high quality coupled with product versatility supports operational efficiency. QHSSE and standardisation by reducing the number of consumables required on-board.

Our cabinet solutions also provide safe storage and on-board stock to handle unexpected repair situations. When used for high severity applications the electrodes all have the necessary approvals from major classification societies. Protection against seawater and harsh environment is secured through HD packing material and Low Moisture Absorption Coatings.

# Tools & Workshop Equipment

## Base Range

# Tools & Workshop Equipment

WSS offers a wide range of workshop equipment for all offshore tasks and challenges. The tools offered are of high quality and the reputable Unitor™ brand is highly appreciated by offshore workers all over the world.

### Tools

WSS offers a well-tested and approved range of tools. The range consists of products like needle scalers, chipping and scaling hammers, angle grinders and impact wrenches. All products are delivered with the high-quality standard and reputation of the Unitor™ brand. Our range supports general maintenance and upgrade of living quarters, weather decks and load-bearing structures. Designed with durability in mind, our products are used in the toughest maritime and offshore environments. Ergonomic design and excellence in manufacturing adds up to long-lasting and hard-hitting impact tools. All air tool products have been tried and tested in harsh offshore and maritime environments.

Product	Product Information	Product Number
Needle Scaler Ns-Pro 28	Scaler/Chippers/Hammers	722025
Deck Scaler Dsh-Pro 11	Scaler/Chippers/Hammers	734061
Scaling Hammer Sh-Pro 3	Scaler/Chippers/Hammers	722165
Angle Grinder Ag-Pro 4 B Version	Grinders	756901
Impact Wrench Iw-Pro 3/4	Impact Wrench	722181
USH Socket 1/2 Hose	Quick Couplers	191692

### Workshop Equipment

For workshop equipment we offer a variety of tools like band saw machines, grinders, jig saws, drills and hydraulic nut splitters from well-known and approved suppliers. Cleaning surfaces, removing gaskets and general surface preparation is not a problem for our line of grinders. Our compact and powerful workshop tools are specifically engineered to make you more productive and your job easier. Adding to this, enhanced ergonomics makes our equipment easy to use.

Product	Product Information	Product Number
Band Saw Machine Hu 351 Cso	Saw	L09077
Angle Grinder 5" 1000rpm	Grinder	721928
Hydraulic Nut Splitter	Nut Splitter	L34830
Saw, Jig	Saw	721878
Battery Drill 12V	Drill	721803
Drill – Chuck Size 1-10 MM	Drill	721894
Drill – Chuck Size 3-16 MM	Drill	721902
Percussion Drill PD2E 22 R	Drill	778001

In the event of minor oil spills during operations or maintenance - a fast, efficient response is essential.

Our oil spill kits, booms, sorbent pads and other damage control solutions are all designed to be deployed easily and effectively when used in conjunction with the response plan. Our global network ensures support for the kits with a range of replenishment items.

### Oil Spill Kits & Sorbent Booms

Unitor™ oil spill kits are designed as an offshore and marine oil spill response measure. For offshore and marine vessels, the oil spill kits must be used in conjunction with the vessels response plan as required by IMO and OPA90. Whether the offshore application is targeted against minor spill control or as a precautionary measure in relation to maintenance work, our absorbents will take in up to 25 times their own weight. They deploy easily and are effective in use.

In addition to the oil spill kits, WSS also carries a range of sorbent booms. The sorbent booms contain minor oil spills and are designed to link together into any length. The sorbent booms prevent spreading and stop contaminants from getting into the sea.

Product	Product Information	Product Number
Oil Spill Kit 1 Barrel	Oil Spill Kit (1 Pallet)	597245
Oil Spill Kit 7 Barrels	Oil Spill Kit (2 Pallets)	597237
Oil Spill Kit 12 Barrels	Oil Spill Kit (3 Pallets)	592717
Sorbent Boom U 94410 S	Sorbent Booms (Size: 3meters x 13cm. 114L)	592766
Sorbent Boom U94410	Sorbent Booms (Size: 3meters x 10cm. 228L)	603217
Sorb. Boom W/Net U94810 SN	Sorbent Booms (Size: 3meters x 20cm. 392L)	603233

### Sorbent Pads & Oil Spill Gear

Our range of sorbent pads, rolls and pillows can be used for cleaning up oily, chemical or flammable liquids after a spill. Extremely high absorption rates ensures that the spill is contained and cleaned up as quickly as possible. In addition to sorbent pads, we also offer a range of oil spill gear such as, overalls, boots, gloves, waste bags, storage boxes and clean-up tools that can be used when handling minor spills.

Product	Product Information	Product Number
Sorbent Pads U 94200	Sorbent Pads	592758
Sorbent Pads U 9450	Sorbent Pads	592758
Sorbent Pads U 9450	Sorbent Pads	592758
Sorbent Pillow U 9440 P	Sorbent Pillow	603266
Oil Spill Kit – Single Suit	Oil Spill Gear	592790
