HEAVY DUTY VACUUM PUMP 115/230V UVP1580-A3

Product group: **606** Product number: **587664**

This heavy duty vacuum pump is specifically designed for efficient evacuation and deep vacuum applications for both non-flammable and flammable refrigerants. It features a bigger and more modern motor, suitable for cold start and long periods of operation. Its compact, ergonomic design makes it ideal for technicians handling refrigerants safely and effectively.

Product information

Features

- Two-stage deep vacuum
- Easy switch from 115V to 230V
- Ballast Valve for deeper vacuum, as low as 15 micron
- Suitable for A1, A2, A2L, and A3 refrigerant

Benefits

- Can be used on systems using CFC, HCFC and HFC in combination with mineral oil, polyester oil, alkyl benzeen oil and PAG oil
- Referred to as "the long term trouble avoider" among refrigeration specialists
- Gas ballast valve to reduce condensation of moisture

Specification

General

Product code	UVP1580-A3
Suggested Inventory Hazard Material classification	D-1

Dimensions/Weight

Connection [Size/ Type]	1/4" and 3/8" flare
Weight [kg]	15.2

Documents

SDoC and MD for IHM
