GAMAZYME DIGESTOR 25 LTR

Product group: **656** Product number: **628026**

Unitor™ Gamazyme Digestor is a patented formulation containing a synergetic blend of highly specialised bacteria. The mix of micro-organisms in this product increases organic degradation performance.

Product information

This product supersedes product no: **624015**

Utilising active enzymes to eat through biological and organic waste products, Unitor™ Gamazyme Digestor is a safe and non-corrosive product used to restore flow in drains where grease accumulation is a problem. Unitor™ Gamazyme Digestor's biochemical formulation is designed to provide exceptional performance in clogged drain lines, grease traps and floor drains. It restores slow running drains and reduces odours due to organic build-up.

Features

- Water based biological drain cleaner for slow running drains
- Patented, environmentally friendly bioenzymatic formulation designed to restore flow in drain systems containing greasy deposits
- Results in increased bacterial activity in a variety of organic wastes
- Environmentally adapted

Benefits

- Free of harsh chemical compounds normally associated with acid and caustic drain openers
- Provides penetration, breakdown and degradation of organic drain line deposits and blockages
- Ideal for applications subject to aerobic and anaerobic environments

Specification

General

Invent Hazard Material (IMO/EU) classification	C-49
---	------

Physical properties

Appearance	Green
Density [g/ml]	1,0
Form	Liquid
pH	4.7-5.3
Smell	Herbal/Lemon

Technical data

Temperature [°C]	10 - 60 active range
-------------------------	----------------------

Documents

[SDoC and MD for IHM](#)

Directions for use

1. Drain Cleaner

Use 500ml of Unitor™ Gamazyme™ Digestor per 5cm drain diameter to restore flow in drains and to keep them free flowing. Repeat the operation if necessary. Use regularly, once a day or several times a week to maintain drains free of grease.

2. Cleaning of Pulpers

Flush the whole system at the end of the day including pulpers, pipes, etc. with warm water (maximum 60°C) and Unitor™ Gamazyme™ Digestor.

Dose the product neat in the economiser tank by using a dosing pump. Use a dosage rate of approximately 2 litre per m3 water.
